

Netatmo Makes Gardening High-Tech for a Beautiful Garden

Calling all green-fingered types: time to pull out the shovels, gloves, seeds... and the rest of your gardening gear to prepare your garden for spring. The **Netatmo Weather Station** and its accessories, the **Rain Gauge** and the **Wind Gauge**, help you monitor your garden’s environment from your smartphone, so you have all weather information to make your slice of nature thrive. As it’s now compatible with Amazon Alexa, all you need to do is ask Alexa to have accurate information about the weather conditions in your garden. Become a more informed gardener with the Netatmo Weather Station.

GARDEN MONITORING IN REAL TIME

Personal Weather Station

With the **Personal Weather Station**, you can monitor outdoor environmental elements such as temperature, humidity, and pressure in real-time. Use the Netatmo Weather App to view your own local data, in the form of tables and charts. It will help you understand weather patterns and what happened overnight. Simply say “Alexa, ask Netatmo what the outside temperature is” to know if extreme temperatures could impact your greens.

Price: £139

PRECIPITATION LEVELS MEASUREMENTS

Rain Gauge

Ensure your garden is getting sufficient water. The **Rain Gauge** records the amount of rainfall per hour or cumulated over longer periods of time so you can know precisely when to water your lawn and plants to create the garden of your dreams. Asking Alexa how much it’s been raining during the day, you’ll have real time information to keep your garden green. You can also connect your Rain gauge to your connected sprinkler to save water.

Price: £59

HIGH WIND AND GUST ALERTS

Wind Gauge

Using the latest in ultrasound technology, the **Wind Gauge** measures wind speed and direction. It will alert you in real time if gusts reach a certain speed. Just ask Alexa about the wind conditions to know precisely when to protect your plants. The Netatmo Wind Gauge is maintenance free and has no moving parts.

ABOUT NETATMO

Netatmo is a revolutionary smart home company, developing groundbreaking, intuitive and beautifully-designed connected consumer electronics. Truly smart, Netatmo’s innovative products provide a seamless experience that helps users create a safer, healthier and more comfortable home.

Netatmo carefully designs the mechanics, electronics and embedded software of all its products to the highest standards. Netatmo also creates the mobile and web applications that fully realise their potential.

Since 2012 Netatmo has released thirteen devices and accessories, divided into four categories:

- Weather - The Personal Weather Station and its accessories, the Additional Module, the Rain Gauge and the Wind Gauge.
- Energy - The Smart Thermostat and the Smart Radiator Valves, both designed by Philippe Starck.

- Security - The security cameras Welcome, for indoor, and Presence, for outdoor, and their accessories, the Tags and the Indoor Security Siren, and the Smart Smoke Alarm
- Air care - Healthy Home Coach, the smart indoor climate monitor

Netatmo is a leading innovator in the smart home industry with products available through a growing network of distributors worldwide, selling to consumers through major retail and B2B channels.

Through its program “with Netatmo”, Netatmo develops connected solutions with leading brands in the building industry to be integrated into residential home infrastructure, whether new-build or renovation.

In November 2015 Netatmo completed a series B funding round of €30 million. The company previously raised €4.5 million in 2013.
